SUMMARY

A skilled and motivated Frontend Developer with experience in React, NextJS, TypeScript, and NodeJS. Committed to delivering high-quality results and working collaboratively in a friendly and dynamic environment.

EXPERIENCE

Frontend Developer

Lanturn Pte Ltd

📅 2021 - Present   📍 Singapore / Remote

Worked on the development of a browser-based application from an Excel process using React, NodeJS, and TypeScript resulting in an increase in user client base. Improved application performance by optimizing REST API calls and reducing load times resulting in an increase in page speed. Collaborated with cross-functional teams to ensure timely delivery of project milestones and deadlines.

- Developed new features and enhancements for the application using React, NodeJS, and TypeScript.
- Implemented REST APIs to connect the application to the backend services.
- Implemented responsive designs resulting in a high increase in mobile traffic.
- Optimized REST API calls and Frontend code to reduce load times resulting in an increase in page speed.
- Collaborated with cross-functional teams to ensure timely delivery of project milestones.
- Debugged and resolved application issues to improve user experience.

React Developer

Full Scale

📅 2020 - 2021   📍 Cebu City, Philippines / Remote

Worked on creating React web shopping cart components for a Software Development client resulting in them creating various eCommerce applications. Worked on migrating a web application from AngularJS to React to ensure an up-to-date application since Google has stopped supporting AngularJS.

- Developed web shopping cart components with customization in mind for our client to create their own various eCommerce application using React resulting our client to create various applications.
- Deployed these web shopping cart components via private NPM package and through CDN.
- Started the codebase of a web application that is to be migrated from AngularJS to React to ensure an up-to-date web application.
- Trained frontend developers that didn't have React experience for a React project that resulted into an efficient team that build the React migration.

Full Stack Developer

Alliance Software Inc.

📅 2018 - 2020   📍 Cebu City, Philippines

Worked on the development of various web applications using React, Java and C# resulting in an increase in user engagement. Collaborated with Japanese clients to gather requirements and provide technical solutions resulting in a high satisfaction rate.

- Developed new features and enhancements for web applications using React, Java and C#.
- Collaborated with Japanese clients with the help of a Japanese translator to gather requirements and provide technical solutions resulting in a 100% satisfaction rate.
- Estimated tasks based on the specifications provided by clients and supervised project schedules according to those specifications.
- Debugged and resolved application issues to improve user experience.

EDUCATION

Bachelor of Science in Computer Science

Cebu Institute of Technology - University

📅 2014 - 2018   📍 Cebu City, Philippines

STRENGTHS

⚡ **Problem-solving skills**
Solved complex coding problems using React and NextJS resulting in faster application performance.

💡 **Team Player**
Collaborated with cross-functional teams to develop and deliver high-quality products.

🚩 **Attention to detail**
Ensured code quality and accuracy through rigorous testing and review processes.

SKILLS

React   NextJS   Typescript   NodeJS

REST API   HTML/CSS   Javascript

AWS

ACHIEVEMENTS

🏅 **Leading a development team**
Successfully led a team of developers to deliver an internal time-keeping web application on time and increased in workforce productivity analyzation.

🚩 **Worked with a cross-functional team**
Collaborated with cross-functional teams, including marketing, product, and sales, to ensure the timely delivery of projects and the creation of solutions that meet client needs & expectations, and provide a better user experience.
